

P O N D  
A N <sup>8</sup>  
ALMANACK

For the Year of our  
L O R D G O D

1703.

Being the 3<sup>d</sup> after Bissextile or Leap-  
year, and from the Worlds Creation at  
the Spring 5706 years Compleat.

Amplified with many good things  
both for pleasure and profit : and fitted for  
the Meridian of *Saffron-Walden in Essex*,  
where the Pole is elevated 52 degrees and  
6 minutes above the Horizon.

And may serve indifferently for any other  
place of this Kingdom.

C A M B R I D G E,  
Printed by *John Hayes*, Printer to the  
University, 1703.

*Thomson des. R.*

# **Pond 1703.**

The vulgar Notes and moveable Feasts for this

Year 1703, in both Accounts, viz.

| Julian or English. |    | The Golden Number     | Gregorian or Foreign. |    |
|--------------------|----|-----------------------|-----------------------|----|
|                    | 13 | The Dominical Letters | 13                    |    |
|                    | 2  | The Epact             | 13                    |    |
|                    | 4  | The Cycle of the Sun  | 4                     |    |
| Febr.              | 7  | Advent-Sunday         | Febr.                 | 17 |

| Novemb.            | 28 | Advent-Sunday         | Decemb.               | 1  |

## The Suns entrance into the four Cardinal Signs.

**H**E enters ♈, *March* the 10<sup>th</sup>, 2 min. past 7 in the morning, and then begins our Spring Quarter.

He enters ♋, *June* the 11<sup>th</sup>, 51 minutes past 9 beforenoon, and then begins our Summer Quarter.

He enters ♏, *September* the 12<sup>th</sup>, 58 minutes past 8 at night, and then begins our Autumn.

He enters ♐, *December* the 11<sup>th</sup>, 20 min. past 11 beforenoon, and then begins our Winter Quarter.

## Times prohibiting Marriage.

**M**Arriage comes in on the 13 day of January, and at Septuagesima Sunday it is out again until Low-sunday; at which time it comes in again, and goes not out till Rogation-sunday: thence it is forbidden until Trinity-sunday, from whence it is unforbidden till Advent-sunday: but then it goes out, and comes not in again till the 13 day of January next following.

The

# The beginning and ending of the Terms.

**Hilary Term** begins January 23, ends February 12.

**Passer Term** begins April 14, ends May 10.

**Trinity Term** begins May 28, ends June 16.

**Michaelmas Term** begins Octob. 23, ends Novemb. 29.

*A Table shewing how many years Purchase a Lease or Annuity to endure for any number of years under 30, is worth presently, at interest upon interest, at six in the hundred, and shewing also how to discount any Lease in being, and the true value of the Reversion after any number of years.*

| The Use and Explanation of this Table. |        |         |             |   |                   |        |         |
|--|--------|---------|-------------|---|-------------------|--------|---------|
| Years of a Lease.                      | Years. | Months. | Dec. parts. | The first Column at the left hand sheweth the years of a Lease, or Annuity, and right against each year are the years, months, and decimal parts of a months purchase that such a Lease or Annuity is worth.  | Years of a Lease. | Years. | Months. |
| 1                                      | 0      | 11      | 0           | <p><b>Example.</b><br/>Suppose a Lease or Annuity to continue 18 years, and you would know how many years purchase it is worth in ready money, look in the Column of the years of a Lease, for 18 years, and against the same you shall find 10, 9, 9, which shews such a Lease to be worth 10 years,</p> | 16                | 10     | 1       |
| 2                                      | 1      | 9       | 9           |   | 17                | 10     | 5       |
| 3                                      | 2      | 8       | 1           |   | 18                | 10     | 9       |
| 4                                      | 3      | 5       | 9           |   | 19                | 11     | 1       |
| 5                                      | 4      | 2       | 5           |   | 20                | 11     | 5       |
| 6                                      | 4      | 11      | 0           |   | 21                | 11     | 9       |
| 7                                      | 5      | 7       | 0           |   | 22                | 12     | 0       |
| 8                                      | 6      | 2       | 5           |   | 23                | 12     | 3       |
| 9                                      | 6      | 9       | 6           |   | 24                | 12     | 6       |
| 10                                     | 7      | 4       | 3           |   | 25                | 12     | 9       |
| 11                                     | 7      | 10      | 7           |   | 26                | 13     | 0       |
| 12                                     | 8      | 4       | 6           |   | 27                | 13     | 3       |
| 13                                     | 8      | 10      | 3           |   | 28                | 13     | 4       |
| 14                                     | 9      | 1       | 6           |   | 29                | 13     | 7       |
| 15                                     | 9      | 8       | 5           |   | 30                | 13     | 1       |

9 months, and 9 ten parts of a months purchase. So that the yearly rent being 12 pound, the value will be thus found.

But if you buy the Reversion of a Lease now, as suppose a Lease of 20 years continuance, and you commence not till 5 years be past, in this and such like cases, look for the present worth of the Lease, as this of 20 years, which will be found worth 11 years, 5 months, 7 tenths of a months purchase, then look the present worth of a Lease of 5 years, which will be found worth 4 years, 2 months, 5 tenths, take this out of 11 5 7 and there remains 7. 3. 2. which are 7 years, 6 months, 2 tenths of a months purchase; and so much is the Reversion of the Lease of 20 years, after 5 years worth be expired.

Keen frosts have chained up the streams, and now  
A snowy beard is worn by every bough :  
In silver gray cold Winter clothes the ground,  
And chattering Teeth our useless Tongues confound.

## January 1703.

1  
2  
3 Fine mild  
4 weather for  
5 the season.  
6  
7  
8  
9  
10  
11 Cold, with  
12 some rain or  
13 snow.  
14  
15  
16  
17  
18  
19 Gloomy and  
20 cold.  
21  
22  
23  
24  
25  
26 Some sharp  
27 air, with  
28 frost towards  
29 the end.  
30  
31

Uncover as yet roots of Trees  
where ablaqueation is requisite, Plant  
Quick-sees, and Transplant Fruit  
Trees, if not finished. Set Vines,  
and begin to prune the old, Prune the  
branches of Orchard fruit Trees,  
especially the long planted, and that  
towards the decrease: but for such  
as are newly planted, they need not  
be disbranched till the sap begins to  
stir: In this work cut off all the shoot  
of *August*, unless the nakedness of the  
place incline you to spare it:

You may now begin to Nail and  
Trim your Wall fruit: Cleanse Trees  
of Moss, &c. the weather moist. Ga-  
ther Cyons for Grasses before the Buds  
sprout, and about the latter end Grass  
them in the stock, Pears, Cherries,  
and Plums. Set Beans, Pease, &c.  
In this month forbear Physick, or to  
let blood, unless necessity constrain;  
beware of taking cold, for Rheums  
and Flegm do much increase this  
month.

# February hath xxviii days

New moon the 4 day, 45 min. past 11 at night.  
 First quarter the 12 day, 18 min. past 6 at night.  
 Full moon the 20 day, 56 min. past 1 in the afternoon.  
 Last quarter the 28 day, 50 min. past 10 in the morn.

New watry *Pisces* cools bright *Phæbus* side,  
 And downy snow the candid earth doth hide:  
 Encontring winds do even rock the skies,  
 Whilst the poor Swain trembling in's cottage lies.

M.D. Inclination of  
 the Air.

February 1703.

1  
 2 Cold, with  
 3 some frost  
 4 and snow.  
 5  
 6  
 7  
 8  
 9 Good season-  
 10 able weather  
 11 about this  
 12 time.  
 13  
 14  
 15  
 16  
 17 Cloudy and  
 18 moist,  
 19  
 20  
 21  
 22  
 23 Windy with  
 24 some rain or  
 25 snow towards  
 26 the end.  
 27  
 28

In this month remove Graffs of former years Graffing, Cut and lay Quick-sets, Plant Vines as yet, and Hops, and fruit that grows on bunches. Set all sorts of kernels and strong Seeds, also sow beans, Pease Corn-sallet, Marigold, Anny-seeds, Radish; Parsnips, Carrots, Onions, Garlick. Rub Moss off your Trees after a soaking rain, and scrape and cleanse them of Cankers. Cut off the Webs of Caterpillars from the tops of Twigs and Trees to burn. Parsly, Spinage and other hardy Pot herbs may now be planted. Half open your passages for the Bees, but continue to feed weak Stocks.

Be still sparing in Physick, or to let Bloud without necessity, and be carefull not to catch cold when the weather flattens with warmth.

# March hath xxxi days.

New moon the 6 day, 43 min. past 1 in the afternoon.  
 First quarter the 14 day, 2 min. past 3 in the afternoon.  
 Full moon the 22 day, 24 min. past 1 in the morning.  
 Last quarter the 28 day, at 6 at night.

Sun-rising.

Sun-setting.

The Sun hath now earth's rugged Chains unbound,  
 With gaudy coats the roughest Meads are crown'd;  
 From Prison they with growing glory rise,  
 That lately fetter'd were with stiffned Ice.

## March 1703.

Windy, tem-  
 pestuous wea-  
 ther with  
 some wet.

Cold frosty  
 mornings a-  
 bout this  
 time.

Cold, windy  
 and moist.

Good season-  
 able weather  
 towards the  
 end.

You may as yet cut Quick-sees, and cover such Tree-roots as you laid bare in *Autumn*; sow Oats, Barly, Parsnips, Onions, Carrots, Mel-lons, Cucumbers, &c. Graff all this month, beginning with Pears, and ending with Apples, unless the Spring prove extraordinary forwards. Prune last Years Graffs, and Cut off the heads of your budded Stocks. It were profitable now also to top your Rose-Trees a little with your knife near a leaf bud, and to Prune off the dead and withered branches, keeping them lower then the custome is, and to a single Stem.

Slip and Set Sage, Rosemary, La-vender Thyme, &c. Mid-March dress up and string your Straw-berry beds. It is now seasonable to purge and let blood about the 20 of this month, there are such changes in the Air, yet it's generally very sickly; and there-fore be specially carefull of your health at that time.

# April hath xxx days.

New moon the 5 day, 37 min. past 4 in the morning.  
 First quarter the 13 day, 30 min. past 8 in the morning.  
 Full moon the 20 day, 45 min. past 10 before noon.  
 Last quarter the 27 day, 57 min. past 1 in the morning.

Sun-rising.

Sun-setting.

Bright *Taurus* now with Golden horn displays  
The joyful year ; life in dead plants conveighs.  
The quickning spring refreshing showers sheads,  
Upon the smiling Flowers verdant Heads.

April 1703.

Very change-  
able weather,  
but generally  
good for the  
season.

Fine showry  
weather, but  
somewhat cool  
yet.

Windy with  
storms of hail  
and some  
thunder.

Now is the time to sow Hemp, and  
Flax, ( Pole Hops, ) Sweet Marjo-  
ram, Hyssop, Thyme, Winterfavory,  
Scurvy-grass, Lettice, Purslian, Rad-  
dish, &c. Plant Artichoke slips, and  
set French Beans, you may slip La-  
vender, Thyme, Peneroyal, Sage,  
Rosemary, &c.

Gather up worms and snails in  
your garden after Evening showers,  
continue this after all Summer  
rains. Open your Bee-hives, for  
now they hatch: Bark Trees for  
Tanners, The use of Physick is  
now seasonable, as also Purgings  
and Bloud-letting.

# May hath xxxi days.

New moon the 4 day, 6 min. past 8 at night.  
 First quarter the 12 day, 37 min. past 8 at night.  
 Full moon the 19 day, 43 min. past 7 at night.  
 Last quarter the 26 day, 15 min past 10 before noon.

Sun-rising.

Sun-setting.

Triumphant Month! who art the gaudy Queen  
 Of all the rest : now all the plains are seen  
 Bespangled o're, with *Flora's* richest pride,  
 Whose golden Tufts the pregnant earth doth hide.

May 1703.

1  
2  
3 Fine and pleas-  
4 sant at the  
5 beginning of  
6 the month.

7  
8  
9  
10  
11 Somewhat  
12 cold battering  
13 storms of rain,  
14 or hail.

15  
16  
17  
18  
19 Windy with  
20 some rain and  
21 thunder in  
22 many places.

23  
24  
25  
26  
27 Good wea-  
28 ther concludes  
29 the month.

Sow sweet Marjoran, Thyme, and  
 those Herbs and Plants which are  
 most tender; now distil Plants for  
 waters, Spirits, &c. Continue weed-  
 ing before they run to seeds, weed  
 also your Hop Gardens and Corn,  
 and walk in the Fields and Gardens  
 early in the Morning.

Now set your Bees at full liber-  
 ty, look out often, and expect swarms.  
 Plant your Carnations and Gilly-  
 flowers after mid-day about this sea-  
 son. Plant also your Stock Gilly-  
 flowers in Beds at full Moon. Whey  
 Clarified with Sage, Scurvy-grass  
 Ale, and Worm-wood Beer are  
 wholesome drinks.

# June hath xxx days.

New moon the 3 day, 45 min. past 11 beforenoon.  
 First quarter the 11 day, 24 min. past 2 afternoon.  
 Full moon the 18 day, 16 min. past 1 in the morning.  
 Last quarter the 24 day, 18 min. past 11 at night.

| 30 | f | Marcellus     |        | 19 | 3 | 51 | 8 | 9  |

Sun-rising.

Sun-setting.

Tyndarian Stars being past ; days burning eye  
Makes *Cancer's* crooked claws in fervour fry :  
The Shepherds with their bleating flocks do go,  
From the scorch't mountains to cool shades below.

June 1703.

Hot season-  
able weather.

Hasty showers  
with thunder  
in many  
places.

Fine pleasant  
showers with  
wind.

Hot and dry  
towards the  
end of the  
month.

Sow Lettice, Chervile, Radish,  
&c. to have young and tender sal-  
leting. Gather Herbs in the Full  
Moon to keep dry ; they keep and  
retain their vertue and sweet smell  
better, if dried in the shade, than  
in the Sun, whatever some pretend.  
Set Rosemary and Gilliflowers 3 or 4  
days after the Full, and they will not  
run to seed. Look to your Bees for  
Swarms and Casts, and begin to de-  
stroy Insects in your Garden with  
Hoofs, Canes, and tempting Baits ;  
gather snails after Rain, &c.

Thin and light Diet, and cha-  
thoughts tend to health : Lie not un-  
advisedly on the ground, nor over-  
hastily drink.

# July hath xxii days.

New moon the 3 day, 21 min. past 2 in the morning.  
 First quarter the 10 day, 26 min. past 4 at night.  
 Full moon the 17 day, 34 min. past 8 in the morning.  
 Last quarter the 24 day, 27 min. past 10 in the morn.

Sun-rising.

Sun-setting.

With cocks of Hay the Fields are scatter'd round,  
 And shining Nymphs in silent groves are found.  
*Phelus* doth near that horrid Monaster ride,  
 Whose skin did great *Alcedor's* body hide.

July 1703.

Very good and  
 pleasant wea-  
 ther, and mo-  
 derate as to  
 heat at present.

Hot, with  
 some showers  
 and thunder.

Wind with  
 some wet.

Good season-  
 able weather  
 towards the  
 end.

In this month, fallow your Land  
 for Wheat, pull up Hemp that is ripe,  
 get Rue and Wormwood to drive  
 away Fleas and Moths; dry Flowers  
 in the shade and then Sun them a  
 little for fear of corruption; perfume  
 your house with sweet savours, and  
 defend your self from stinks in the  
 street.

Forbear superfluous drinking, but  
 eat heartily; use cold Herbs and  
 Meat, abstain from Physick. Perfume  
 your house every morning with Tar,  
 use *Carduus Benedictus* boiled, and  
 drink fasting.

# August hath xxxi days.

New moon the 1 day, 20 min. past 4 in the afternoon.  
 First quarter the 8 day, 40 min. past 11 at night.  
 Full moon the 15 day, 6 min. past 5 at night.  
 Last quarter the 23 day, 8 min. past 7 at night.  
 New moon the 31 day, 6 min. past 6 in the morning.

The Sweaty Ploughman reaps the rip'ned Corn,  
 And painted fruit from burd'ned Trees are torn.  
 The furious Dog Star doth his influence roul  
 Unto the Icy Sea, and frozen Pole.

August 1703.

Good harvest  
 weather about  
 this time.

Windy with  
 some rain  
 and thunder.

Windy and  
 moist.

Good season-  
 able weather  
 concludes the  
 Month.

This month reap Wheat and Rye,  
 cut down your Oats and Barley that  
 is ripe, gather Garden-seeds, sow  
 Corn-sallet, Marigolds, Lettice,  
 Carrots, Parsneps, Turneps, Spinage,  
 Onions: Likewise now pull up ripe  
 Onions and Garlick.

This month use moderate diet,  
 forbear to sleep presently after meat,  
 for that brings Opilations, Headach,  
 Agues, and Cathars, and other Di-  
 stempers of the same kind; take heed  
 of sudden Cold after great Heats.

# September hath xxx day.

First quarter the 7 day, 49 min. past 5 in the morning.  
 Full moon the 14 day, 19 min. past 4 in the morning.  
 Last quarter the 22 day, at 2 in the morning.  
 New moon the 29 day, 48 min. past 5 at night.

The stately Forrests their green coats throw by  
 And now put on a yellow Livery.  
 The winged quire do in sad Dirges moan  
 The fading year, Summer so quickly gone.

September 1703.

Windy and  
 wet about  
 this time,

Very good  
 weather the  
 season confi-  
 ded,

Somewhat  
 cold and  
 moist,

Windy with  
 some rain to-  
 wards the end.

Gather now (if ripe) your win-  
 ter Fruits, as Apples, Pears, Plums,  
 &c. to prevent their falling by the  
 great winds. Also gather your wind-  
 falls from day to day: do this work  
 in dry weather.

Set Arrichoaks, sow seeds for win-  
 ter Herbs, gather Hops, about the  
 full of the moon the weather being  
 dry, cut Quick-sets, sow Wheat and  
 Rye, kill Bees, make Verjuice, sow  
 Parsnips and Carrots, remove and  
 set slips of Flowers, set Roses, Straw-  
 berries and Barberries, &c.

# October hath xxxi days.

First quarter the 6 day, 54 min. past noon.

Full moon the 13 day, 32 min. past 6 at night.

Last quarter the 21 day, 35 min. past 9 at night.

New moon the 29 day, 6 min. past 5 in the morning.

*Phæbus* is near that gally Monster drew  
 Whom *Tellus* bred, and pale *Orion* flew.  
 Rivers swoln o're neighbouring Meadows spread :  
 And ratling leaves from off the Trees are fled.

October 1703.

Somewhat  
 dark and cool.

Good pleasant  
 weather for  
 the time of  
 the year.

Variable a-  
 bout this time,  
 with some  
 high blustering  
 winds.

Wet and cold  
 towards the  
 end.

Remove young Planes and Trees  
 in the new of the moon, and about  
 the full of the moon, gather such  
 fruit as you left ungathered the last  
 month; set all kind of Nuts and A-  
 corns, and cut your Rose trees but  
 once in two years, if you would have  
 store of Roses.

Provide warm Cloaths now, and  
 consult as well the Taylors as Phy-  
 sicians.

# November hath xxx days.

First quarter the 4 day, 56 min. past 8 at night.  
 Full moon the 12 day, 38 min. past 11 before noon.  
 Last quarter the 20 day, 23 min. past 4 at night.  
 New moon the 27 day, 47 min. past 3 in the afternoon.

The Evening of the Year is come ; a damp  
 And dusky Air obscures heaven's burning Lamp ;  
 Night doth on day encroach ; the fruitful sheaf  
 The rattling flails do of its grain bereave.

## November 1703

Windy with  
 cold rain or  
 snow.

Gloomy wea-  
 ther and incli-  
 ning to frost.

Some frost a-  
 bout this  
 time.

Variable and  
 somewhat un-  
 settled, yet co-  
 siderable good  
 for the season.

In the new moon remove young  
 Trees, set Crab-tree stocks to graft  
 on the following Year, and at the  
 decrease or old of the moon sow and  
 set early Beans and Pease ; trench  
 and fit ground for Artichokes, &c.  
 Make Mault, kill Hogs, and make  
 Martimas Beef.

Use good Meat, and wholesome  
 Drinks to nourish the Blood, and  
 be sure to go dry of your feet ; for  
 if not (unless you be used to it)  
 you'll be certainly troubled with  
 Rheums, and Cold, &c. If any di-  
 ssemper afflict the Body, finish your  
 Physick this month, and so rest 'till  
 March, unless necessity urge.

# December hath xxii days.

First quarter the 4 day, 10 min. past 8 in the morning.  
 Full moon the 12 day, 35 min. past 6 in the morning.  
 Last quarter the 20 day, 12 min. past 8 in the morning.  
 New moon the 27 day, 4 min. past 2 in the morning.

The wrinkled brow, the furrowed face appear,  
And hoary head of the departing year,  
The people shed no Tears, nor mournful cries,  
But with glad Feasts conclude it's obsequies.

## December 1703.

Cold weather  
with some  
rain or snow.

Windy with  
some frost a-  
bout this  
time.

Gloomy, cold  
and moist.

Very good  
weather for  
the time of  
the year.

In this month and also in the next  
fell great Timber in the decrease of  
the moon, for then it being driest  
will last the longer; uncover the  
roots of your fruit-trees, you may  
now plant Vines, also stocks for graf-  
sing, set all sorts of Kernels, Stones,  
&c. All this month you may conti-  
nue to trench and dung ground, to  
be ready for the Planting of Fruit-  
Trees, &c. Either late in this month,  
or in *January* Prune and Cut off your  
Vine shoots to the very Root.

Let the Kitchen be thy Apothe-  
caries shop, hot meats and broths  
thy Physick.

Pond 1703.

*The Eclipses for the Year 1703.*

**T**Here will happen 6 Eclipses this year, Four of the Sun, and Two of the Moon.

The first will be an Invisible Eclipse of the Sun, and will fall upon the 6<sup>th</sup> of *January*.

The Second will be an Eclipse of the Moon and will be total, and visible if the Air be clear, and happens on *June* the 17<sup>th</sup> about midnight.

The Third will be an invisible Eclipse of the Sun, *July* the 3<sup>d</sup>, about 3 in the morning.

The Fourth Eclipse will be of the Sun, upon the 27<sup>th</sup> day of *November*, just after Sun set, and therefore invisible to us here in *England*.

The Fifth is a Total Eclipse of the Moon which will happen on the 12<sup>th</sup> of *December* about 4 of the clock in the morning, and may be seen if the Air be clear.

The Sixth and last Eclipse for this year will be of the Sun, and happens on *December* the 27<sup>th</sup>, at 3 in the morning, it will be a small and invisible Eclipse.

What the Effects of these Eclipses will be I leave to time to tell, which is the best interpreter of all things.

*A true Computation of some things memorable.*

## The use of the Table.

**F**irst girt the Piece about, then look the length of that Girt under the title Com. and against it is the length of a Foot solid in Inches and parts of Inches.

### Example.

Suppose a piece of Timber be 80 Inches about, then look 80 under the title Com. and against it in the next Column toward the right hand is 3 Inches and 393 decimal parts of an Inch, (that is 393 thousand parts, supposing the Inch to be divided into 1000 parts) for the length of a Foot.

### For Square Timber.

Divide always 1728. (the Cubick inches in a foot solid) by the Content at the end, and the Quotient shews the length of a foot solid in Inches.

### Example.

Let a piece of Timber be 12 Inches broad and 10 Inches deep at the end, and then the Content will be 120 Inches, which dividing 1728 the Quotient is 14 Inches and  $\frac{48}{110}$  parts for the length of a foot solid.

### For Boards.

Divide always 144 (the Inches in a foot square) by the breadth, and the Quotient shews the length of a foot square in Inches.

### Example.

If a board be 16 Inches broad, then 144 divided by 16 the Quotient is 9 Inches for the length of a foot according to that breadth.

### For Circles.

If the Circumference be given, multiply it by it self and then by 7, the last product divide by 88, and the Quotient shews the Content: if the Diameter be once given, multiply it by it self, and then by 11 the last product divide by 14 and the Quotient shews the Content.

# Pond 1703.

A Table shewing how many Inches in Length makes one Foot of Timber, according to the Compass of any Round Piece of Timber.

The Compass of the Tree in Inches.

| Com. | In. | parts. | Com. | In. | parts. | Com. | In. | parts. |

*Several Good Receipts shewing how to cure many  
principal Diseases, incident to Horses,  
Cows and Sheep.*

*A Medicine for the Yellows.*

**L**ET the Horse blood in the neck, in the mouth and  
under the eye, then take two penny-worth of Saffron  
which being dried, and made into fine powder, mix it with  
Sweet Butter, and make it in the manner of a Pill, give  
in balls to the Horse three mornings together, let his drink  
be warm, and his hay be sprinkled with water.

*To cure the hungry Evil.*

Give the Horse milk to drink, and wheat-meal mixed  
together, a Quart at a time, and so feed him with pro-  
vender, by little and little, till he forsake it.

*A remedy for the Frenzy, Head-ach, and Staggers  
in Horses.*

The sign to know this Disease by, is usually the  
hanging down of his head, watry eyes, and reeling  
his body; and the cure is to let the horse blood in the  
neck three mornings together, and every morning take  
a quantity of this drink following. Take a quart of  
Ale, and boil in it a big white-bread loaf crust, then  
take it from the fire, and dissolve three or four spoon-  
fuls of honey into it, then lukewarm give it to the Horse  
to drink, and cover over his temples with a plaister of  
Pitch, keep his head exceeding warm, let his meat be  
little, and his stable dark; give him two ounces of Di-  
pente, in Muscadine or honey, after the same manner, it  
is a good cure.

## Pond 17 3.

### *To cure Bots and Worms of all sorts.*

Get the leaves chopped of the herb Savine, and mix with honey and butter, and make two or three balls thereof, and make the horse swallow them down, and it will help him. *probatum est.*

### *A cure for the Cramp, or the Convulsion of the Sinews.*

The Cramp is the drawing the sinews together, or a drawing of ones members; but the Convulsion, is when the whole body is generally contracted and stiffened: The way to cure it, is first to chafe and rub the members contracted with Vinegar and common Oyl, and then to bind it all over with wet hay, or else with woollen or linnen cloaths, either of which is not amiss.

### *To cure the Glaunders.*

Take Auripigmentum two Drams, of Tusilaginis made to powder, as much; mix them together with Turpentine, till they be like paste, make thereof little cakes, lay them before the fire, then rake a Chafindish of coals, and lay two of the cakes thereon, cover them with a funnel, and when the smoak riseth, hold the Chafindish, holding the funnel into the Horse's nostrils, and let the smoak go up into his head, which done, ride the horse till he sweat; do thus every morning before he be watered, till the running of his nostrils cease, and the kernels under his chaps be gone.

### *A cure for the Scab or Mange in Horses.*

Take fresh grease or yellow Arsnick, and mix them together, and where the Manginess or Itch is, there rub it on, the sore being made to run.

*For the Plague in the Guts, and such like Infections.*

Take of Selander roots, leaves and all, one handfull, as much Wormwood, and the like quantity of Rue, wash them well, and then bruise them in a mortar, which being done, boil them well in a quart of Ale, then strain them, and add to the liquour a quarter of a pound of sweet Butter, and being lukewarm, give it to the Horse.

*To cure the pain in the Kidnies, or Stone in a Horse.*

Take a handfull of Maiden-hair, and steep it all night in a quart of strong Ale, give it the horse to drink every morning till he be well; this will break a stone in a horse.

*To defend a horse from the Flies*

Take the juyce of Pellitory of Spain, mix it with Milk and anoint the horse's belly with it, and no Flies will trouble him.

*For broken Bones, or bones out of joynt in Horses.*

First place the bones in the right places, then take Ferismand and beat it in a Mortar, with the Oyl of Swallows, anoint the members broken, then splinter it up and rowl it up, and in fifteen days time the bone will be strong.

---

*Remedies for several Diseases incident to Cows and Oxen.*

*For the Diseases in the Guts, Flix or Collick,*

**T**Ake a handfull of the seed of Wood-roses, dry it and beat it to powder, brew it with a quart of strong Ale, and give it the beast to drink.

## Pond 1703.

### *For the Pestilence or Murrain.*

Take of old Urine a quart, and mix it with a quantity of Hens dung, and dissolve it in it, and let the beast drink it.

### *For the general Scab or Scurf in Cattle.*

If it be only in one place, anoint that place with black Soap and Tarr mixed together, but if it be over the whole body, then first let the beast bleed, and then wash the scabs with old Urine and green Copperas together, and after that anoint the body with boars Grease and Brimstone mixed together.

### *For eating any poisonous thing.*

Take a pint of strong Vinegar, and half so much Oyl, and two spoonfulls of London Treacle, and mix it together on the fire, and give it the beast warm to drink, and it certainly cures him.

### *For killing of Worms in Oxen and Cows.*

Take Savin chopped small, and beaten with sweet butter, and so give it in round balls to the beast, or else use sweet wort and black soap mixed.

### *For preserving Sheep from the Rot.*

Take Adrates, which is a certain salt gathered from the Marshes in the heat of Summer, with this rub the mouth of the sheep once a week, and you never need fear rotting of your sheep.

### *For the staggers in Sheep or Lambs.*

Take Asafetida and dissolve it in warm water, and put the quantity of half a spoonfull into each ear of the sheep or lamb, and it will be a speedy remedy.
